

We Care

Vol.3 No.1

Because nothing else matters

December 2001

GIVE TO SOCIETY WHAT YOU
HAVE RECEIVED

THIRD ANNUAL REPORT AND ACCOUNTS 2001

"If you are thinking a year ahead, sow seeds. If you are thinking ten years ahead, plant a tree. If you are thinking one hundred years ahead, educate the people." (Anon)

Perhaps that's one of the thoughts that went into making education a fundamental right in India. It was one of the best things to have happened in the last year. But what exactly does it mean for the average Indian child? First, it means that every child, irrespective of every man-made barrier, has the right to be educated. It means that our children will not have to grow up like those under the Taliban regime—yearning to learn but left without opportunities.

India is on a better wicket in this respect. But what are the opportunities that the country provides for its children? And what does the right to education mean in the life of a poor child, hungry and helpless? For many youngsters, it will mean being herded to the nearest 'school', a far cry from what you and I have been used to. What can a child learn from an ill-equipped school and from an untutored tutor? An optimist would say the 3Rs, and the bureaucrats would point to the rising literacy graph. But look at it from a realistic point of view and you'll wonder whether statistics and the 3Rs ever helped anyone to earn their livelihood.

Then there are those poverty-stricken children who are fortunate enough to attend reasonably good schools. Will schooling help in these cases? Except for the exceptional student, the answer is a no. Try concentrating on something while on an empty stomach and you'll know the dilemma of many poor students.

Education as a fundamental right makes little sense unless backed by concrete plans. For one, we need more schools and not ramshackle structures. And the government must concentrate on the rural areas where most of India lives.

Second, teach children something useful. Reading and writing is fine but vocational training is far more important. Parents will be more inclined to send children to school if they know that in the long run, the child will be able to earn his/her keep. If not, it makes better sense to send the child to a nearby farm. Which is why incentives come in handy when convincing parents about the importance of education.

Education is an area that every citizen must be involved in—by learning or by helping in the learning process. You can't leave it all to the government. That's why the need for NGOs. That's why the need for people like you. People who can contribute to brighten up a child's world. For, you must remember that:

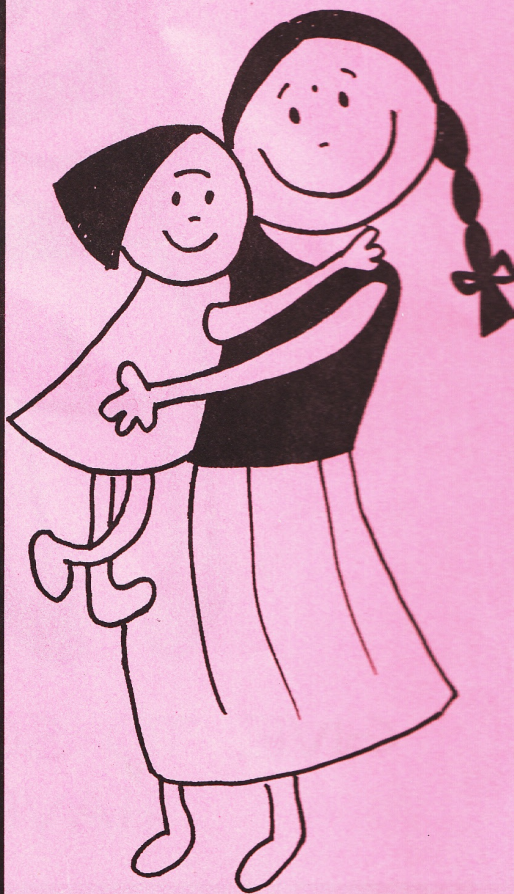

*"By sowing seeds, you will harvest once,
By planting a tree, you will harvest tenfold,
By educating people, you will harvest a hundredfold."*

(Anon)

EDUCATING CHILDREN

Supporting students in their pursuit of education has been our primary goal.

Education is essential not only for every individual's personal growth and development but also for the well being of society. Keeping this in mind, We Care has initiated several programmes and has been supporting the education of over 100 students during the year. Financial assistance is given to help students with fees, books, uniforms and towards nutrition.

EDUCATION PROGRAMME

Sponsor a Child

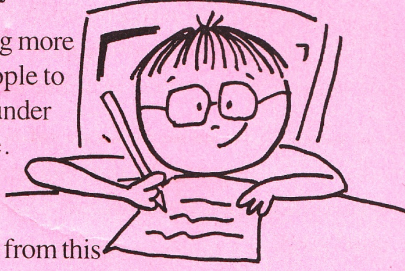

The aim of the "Sponsor a Child" initiative is to give people an opportunity to sponsor the education of a child. Each child will have one sponsor who will receive an annual progress report. We will also try to make it possible for the sponsor and child to interact with each other either personally or through correspondence.

Save 'N' Study

We are encouraging more and more poor people to enroll themselves under this programme.

During the year 2000-2001, 12

students benefitted from this programme. The total amount disbursed during the year was Rs 22,654.

Nutrition

We found that many of the children whose education we supported were physically weak. Their food intake is poor and lacks nourishment. In order to provide these students with some nourishing food, we started a Nutrition Programme. On Saturday evenings, each child receives a ration of eggs and cereals for a week. A health card is being maintained to monitor their improvement. About 32 children are benefiting under this programme.

Creche for the Poor

We Care supports a crèche for children of domestic women workers at Holy Cross Convent, Madivala, Bangalore. So far, we have spent about Rs 17,500 to repair and install new games and play equipment for the children there.

Adult Literacy

In order to educate domestic women workers, WE CARE initiated an adult literacy programme. About seven women from around the Madivala area are attending this programme right now. Every day, for

about 1 1/2 half hours, they learn to read and write English and Kannada.

Mid-Day Meals

During the year 2000-2001, We Care initiated a mid-day meal programme in two schools. The first was at St Francis Xavier School, Summanahalli, Bangalore where the cost of feeding 50 children from July to March 2001 was Rs 22,500. The second was at St Anthony's Kannada Primary School, Camp Belgaum where it cost Rs 8,000 to feed 65 children. Needless to say, the programme was extremely beneficial to the students.

This year, with assistance from Missionzentrale der Franciskaner, Bonn, Germany, we have been able to extend this programme to two more schools, St Clare's Girls Hostel, Nanasera, Jharkhand and Divine Mercy School, Hunchanhatti, Belgaum. The total number of children who will benefit from the programme this year is expected to be about 217.

WE CARE Nursery School

In order to support poor children from the nearby slums, We Care began a nursery school at Holy Cross Convent, Madivala, Bangalore. The school was inaugurated by Fr Babujose Pamplany, Joint Managing Trustee, in June at the Holy Cross Convent. About 25 children between the ages of 3 1/2 and 5 years are being educated. Those who can afford it pay a small fee of Rs 100 per month. Others are granted concessions and many of them are studying free of cost.

EDUCATION PROGRAMME

Higher Education

In keeping with its aim of making people self-reliant, We Care has stepped in to help students pursue vocational education like nursing, chartered accountancy and computer programming.

Value Education

We Care spent Rs 15,000 on a group of delegates to attend the 19th World Conference in Mumbai in October. The three-day conference centred around the theme, Empower the Family.

Gujarat & Education

The earthquake that rocked Gujarat in January is no more news but Gujarat is still a devastated state, needing attention. We Care is doing its bit for the victims. Through advertisements and publicity, we received donations for the welfare of the victims amounting to Rs 45,035. To this, Fr Cleary, CSsR, made a personal contribution of Pounds 5,000 (=INR Rs 3,28,442). We have decided to use the contributions for the education of poor children in the affected areas of Gujarat. We are exploring possibilities on how best to utilize these funds.

SLUM CHILDREN - SUMMER CAMP

This was perhaps one of the biggest projects that We Care has taken up so far. Held between April 23-29, the camp catered to 150 children from four different slums—Rajendra Nagar, Siddartha Nagar, Bande Slum and Jogi Colony. Among the participants were three disabled children.

The camp included meals and snacks, games, drama, songs, drawing and painting, story-telling and other social activities to keep them occupied through the day.

We arranged an outing to the Ramana Maharishi Academy for the Blind with the help of AMICI. We also had a health check-up for all the children with the help of volunteer doctors and staff from St John's Medical College Hospital. The camp ended with a

cultural programme by the children for their parents and friends. Manjunath Reddy, Corporator, was the chief guest.

The camp brought out the immense potential in our slums that go untapped. This was an opportunity for the children to showcase their talent and give them the confidence to participate in similar activities elsewhere.

The summer camp was made possible, thanks to the generous contributions (in cash and kind) from various schools, organizations and individuals. Over 40 persons volunteered their services. We would like to thank, in a special way, the student friars of St Anthony's Friary; the student sisters of the FMM's, Augustine Nivas and Holy Cross Convent; Mrs Inez D'Costa; members of the SFO; Mr Jaynanth & Sreenivas Gowda of Amici; Mrs & Mr Sunderraj; Sr (Dr) Rosaline, FMM; Staff of SJMCH; Mr Ambrose Rajendram & his colleagues of Integrated Information Systems, Inc; the youth volunteers and our donors in helping us to conduct this programme.

Hubble of Activity compressed into seven days of excitement and happiness for the boys and girls of the Rajendra Nagar, Siddartha Nagar, Bande Slum and Jogi Colony.

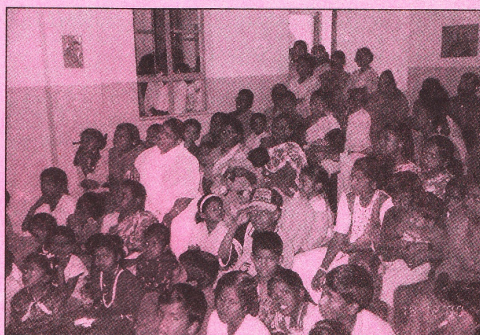

Know doubt the kitchen was the centre of activity, but sports - saw an intermingling of company executives and the young uns. At the end of it all everyone left with the words "Hope We Care has it next year too".

Contributed by Mr Sunderraj

CHILDREN'S ANNUAL DAY

This year, we conducted the annual day for children on the 22nd of December 2001. Over 50 children attended the programme along with their guardians. The children organized a cultural programme co-sponsored by **Y's Men Club**, Jayanagar, Bangalore and **Rotract Club**, Jayanagar, Bangalore. Each child was given a sweater and small gift. Refreshments were served to all the children.

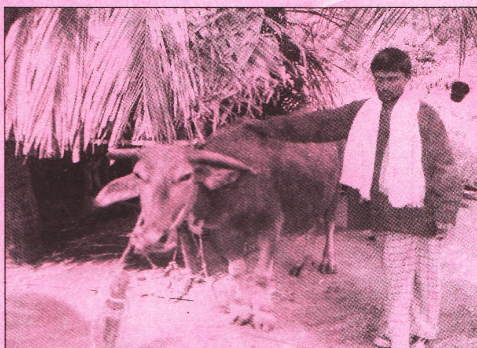

MEDICAL CARE

We Care reaches out to many poor persons who are in need of medical assistance. Medical assistance is given both by way of direct help as well as through the **We Care Homoeopathic Dispensary**. A total of Rs 29,780 was spent on medical care for about 40 persons.

LEPROSY FUND

WE CARE helped **Shivalingaiah**, a leprosy patient in Mandya with Rs 5,700 to buy a buffalo and show him the way towards his livelihood. The help was given to him from the fund created for the care of Leprosy Patients and their Families. The project was implemented with the help of **MOB Rural Health Centre**.

HOUSING

Three persons (including one leprosy patient) were given financial aid to construct their houses. The total amount spent on this was Rs 15,000.

SELF-EMPLOYMENT

One of the best things that happened to **Gurappa of Karpur (Anekal taluk)** was his being cured of leprosy.

But life continued to be a struggle, especially after he sold off his cow to repair his house. WE CARE stepped in with Rs 15,000 and helped him buy a milch cow. This brings in some income and makes life and living a little brighter for Gurappa and his family.

Then there is the case of **Mr John**, 55 years, who would take up driving assignments on a casual basis. He was without a job for a long time. With the help of Rs 5,000 from WE CARE, he set up a tea stall in Madivala, Bangalore.

Mr Anjanappa of Hosahalli was given Rs 5,000 to buy a water pump to make irrigation of his land easier.

CARE FOR SENIOR CITIZENS

Five elderly women receive monthly rations from We Care. Rs 3,782.75 was spent in this area.

CARE FOR THE DISABLED

Financial assistance, amounting to Rs 5,400, was given to three disabled persons.

WE CARE SCREEN PRINTING AND VOCATIONAL TRAINING

The center earned an income of Rs 62,962.70. The total collection from jobs done was Rs 1,46,760. The trainees and staff were paid a stipend of Rs 42,495.

WE CARE WEBSITE

We Care has a website. You can visit us at www.wecaretrust.org. We thank **Rovin Misqitha** for designing and hosting the website and Mr James of **Cybertec Systems** for donating the web space on the web server.

Overview of WE CARE in December 2001

EDUCATION

- Sponsor a Child
- Save N Study
- Bangalore Adoption
- Mid-Day Meals
- Creche Support
- Nursery School
- Gujarat (Earthquake) Children
- Higher Educations

Housing

- Support for repairs, renovation and construction of houses

EMPLOYMENT and INCOME GENERATION

- Employment and Placement Services
- Self-Employment
- Micro Credit

PUBLIC RELATIONS

- Newsletter
- Website
- Pamphlets
- Advertisements

NETWORKING

- Maria Seva Sangha
- Holy Cross Convent

Friends.

Giving it Back to Society

Kevin and Maureen Colaso celebrated their silver wedding anniversary on 31, December 2000, with a difference. They fed over 100 orphan children and donated from their family sources Rs 55,000 to We Care under the fund heading **KEVIN & MAUREEN COLACO CHARITY FUND**.

We have reproduce their letter to **WE CARE** below:

OUR SILVER YEAR OF MEMORIES

Our Silver Wedding Day draws near, we recall many happy memories we have gathered on life's way which add a wealth of meaning to our Silver Wedding day.

"A promise we made before GOD and man, the beating of two hearts in love, prayed that our life together be a happy one blessed by God from above".

We are sweethearts and the closest friends and with each other, our days begin and end. Time has stolen our strength and youth but it has not changed this shining truth. We can't believe our love has lasted all these years, while hardships came with sorrow's tears. Met each test and got by, promising each time we will love each other till we die.

We are not rich in worldly wealth nor do we own anything gained by stealth, but to each other we remain the greatest treasure, which is our source of pride and quiet pleasure. 31st December dawned and we wished each other all the happiness with which two loving hearts are blessed.

Renewed our promises, exchanged Silver Bands and what joy filled my whole being to hear Kevin say "Maureen you were, and are, my choice for life. My girl, my lady, my sweet wife."

What anniversary celebrations are you having, our loved ones asked when we all met to celebrate my sister's silver wedding only a month before But we didn't think much of a celebration as our eldest son was away in the US on an assignment. We decided that in memory of our Silver Wedding, we would present a silver gift to society to help under privileged children and that is how the 'KEVIN & MAUREEN COLACO CHARITY FUND' under WE CARE was born.

What immense joy filled us on our Silver Wedding day which was otherwise a quiet affair. We were blessed with two boys who have grown up to be handsome lads. Keith is now working and his gift to us was his contribution to our charity fund. We appreciate his thoughtfulness and gesture and we hope he will continue to help us build up this fund. Conrad is still a student, so we got warm wishes and kisses from him and we hope that his contributions to this fund will flow shortly.

Both of us have retired under VRS and plan to help social organisations with our services. I end saying, loving God and serving Him in such a faithful way will be a source of pride and joy to us. We pray that He may richly bless our future and may it be even happier than the years we've left behind.

MEMORIAL FUND

Birth of a son/ daughter; Silver/ Golden Jubilee of your Wedding or a passing of a beloved one, these landmarks of your life can be marked with a fund to help the underprivileged through We Care.

For more information on this contact: We Care, St Anthony's Friary, 85 Hosur Road, Bangalore - 560095, India or just email: wecare@rsnl.net

WE CARE AND OTHERS – STRENGTH IN NETWORKING

WE CARE and Holy Cross Convent

We Care has associated itself with Holy Cross Convent: To support the crèche for the children of domestic women; To run the WE CARE Nursery School; To carry on an adult literacy programme; To carry on the nutrition programme for students. We extend a big thanks to Sr Clara and her community for their cooperation and whole hearted support in these endeavours.

WE CARE and AMICI

Through the assistance received from AMICI di Raoul Follereau, Bangalore, we were able to support the education (tuition fees, books, uniform and health care) of over 95 children. The amount spent on this was Rs 93,754. We thank Dr Daisy Kandathil, Mr Jose M V and all the staff of AMICI for their generosity and support.

WE CARE and Navachetana

To continue our assistance to mentally challenged persons who are in need of home care, We Care has supported Navachetana, a Home for Mental Patients, with Rs 15,000.

WE CARE and SKIP

Skills for Progress (SKIP) is an organization in Bangalore that assists people with soft loans and grants towards self-employment and vocational training. SKIP was generous enough to sanction two applications of Mr Gurappa and Mr John towards self-employment. The responsibility for receiving and disbursing the money was done through We Care.

WE CARE and Maria Seva Sangh

We Care is supporting a midday meal programme at St Francis Xavier's School, Bangalore, through Maria Seva Sangha. Our thanks to Lt Gen T C Joseph, AVSM (Retd), Chairman of the Midday Meal Programme of MSS.

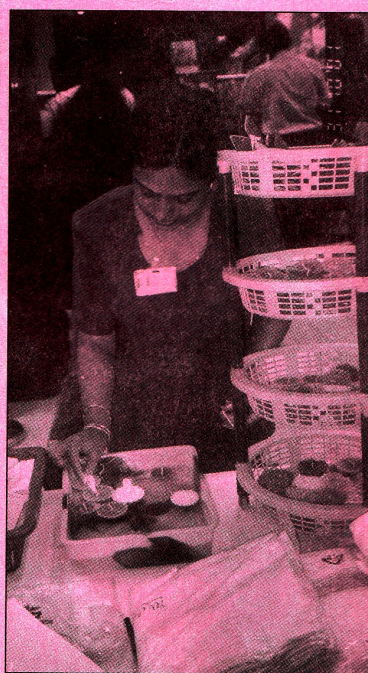

WE CARE and Belgaum Diocesan Education Board

We Care provides midday meals to 65 students of St Anthony's Balawadi and 72 students of Divine Mercy Kannada Primary School, Hunchinatti. The programme is being supervised by Fr Robert Fernandes, Director of Belgaum Diocesan Education Board.

WE CARE and St Clare's Girls Hostel

We Care provides midday meals to 30 tribal girl students at Clare's Girls Hostel in Jharkhand, a hostel constructed by the State Government. The project is supervised by Fr Fulgence Ekka, OFM & Fr. Prasad P. of St Francis of Assisi Church, Nanasera. With the introduction of the mid-day meal programme, there has been an increase in the number of students at the hostel and a marked improvement in their performance. The project is supported by Missionszentrale der Franciskaner, Bonn, Germany.

Hong Kong Bank Shows it Cares

Hong Kong Bank, Bangalore, invited We Care to set up a stall in November 2001 to exhibit and sell handicraft items as a means of raising funds. This was organized as part of their Help-ing Hand Mela - a programme to assist NGOs.

Through this stall, We

Care showcased the products made by disabled persons and self-employed women. We raised around Rs 40,000 through sales and donation. We wish to thank Mr Arvind Shrama, Branch Manager, and Mrs Mavis Smith for this innovative programme and for their whole-hearted support.

The corporate world has many such avenues to come to the help of the underprivileged /and physically challenged by directly involving themselves in similar activities, through WE CARE.

REPORT ON ST. CLARE'S HOSTEL NANSEERA, JHARKAND

Meals Programme for Tribal Girl Children

We would like to present to you a short report of our life in St. Clare's Hostel, Nanesera.

A Brief History of St. Clare's Hostel

St. Clare's Hostel was built by built for the economically weaker Clare's Hostel was known as Bihar Government and officials who Home for the economically However, no government officials of the hostel with regard to food and Franciscans have taken it up, they Hostel. The inmates of the hostel to seek the help of generous people. their riches for the well being of the Trevor and WE CARE who

MEAL Programme for the inmates of St. Clare's Hostel through financial assistance from Missionzentrale Der Franciskaner, Bonn, Germany (MZF). We offer a big thank-you to MZF who generously supported our work.

Presently there are about 32 girls. They are inmates of St. Clare's Hostel. Some children dis-continued due to unknown reasons. About five girls may join soon. The hostel can accommodate about thirty- five girls only.

Our situation before WE CARE joined hands in helping the inmates of St. Clare's Hostel

The inmates used to have only one meal a day with watery curry made out of pulses.

The Bugar was used as a second meal with no vegetables or curry. Often, the children were unable to eat due to lack taste.

Due to an imbalance in the diet children often fell sick, which also affected their studies.

The students used to study under dim solar-Light, and walk up to their hostel in the dark.

Lot of study time was lost in students collecting firewood and also attending to kitchen work.

Our situation after WE CARE joined hands in helping the inmates of St. Clare's Hostel

The children now have **two meals a day** with curry and vegetables.

Bugar and other food is served which is **tasty**.

The children now get **nutritious** food, with eggs and meat, which gives them healthier sustances and mental capacity.

Whenever Solar-lights fail, we switch on the generator for the purpose of studying and hurricane lamps have been provided to overcome the darkness.

The tension of cooking is reduced by engaging the service of a cook.

We are grateful to you for your generous and kind caring self. We would like to renew our collaborative work for the year 2002-2003. Kindly extend us your support in the following year as well.

(Fr.Prasad Papabathuni OFM)

THE STORY OF VIJAY - PROVIDING HOPE

Vijay is a young boy, aged 14 years. He come from a broken family. His father is an alcoholic and his mother is a house maid. He has two sisters and an younger brother. His father has abandoned the family and lives separately. Vijay lives with his mother, brother, sisters, nephew and brother-in-law in a small hut measuring 10' by 8'. The total income of the family is about Rs.1,200 pm. Vijay is a bright boy and was doing well in school. But owing to this miserable situation, Vijay decided to discontinue his studies from class 7th and began working in a small factory. On many occasions he worked for 14 hours earning a small income. On seeing the situation WE CARE decided to adopt Vijay. He got admission for vocational training as an electrician and now studying in this institution.

Vijay's problems were not over. Often he used to go to school hungry as there was nothing to eat for breakfast. Once again, WE CARE made arrangements to give him a boiled egg and a glass of milk every morning before he went to school. Further he had to walk a distance of 2kms to school. Now he is provided with a bi-cycle to go and return from school.

We hope Vijay will be able to study well and lay a good foundation for his future.

THANK YOU

WE CARE has come a long way since it first started out. It would never have been possible without your unstinting help and support.

We Care takes this opportunity to thank every one of you . We would have done it by name but we respect the wishes of many who prefer to remain anonymous Thank you once again.

ABOUT US

WE CARE is a Public Charitable Trust, registered on 30th January, 1999, which was the 75th birthday of its Foundress, Mrs Theresa D'Souza. We Care was born out of a true love and concern for the poor.

We Care wishes to reach out in love and service to all peoples, especially to the poor, women and children, without any kind of discrimination. We Care believes that to be at service of one's neighbour is to be at the service of God Himself. The basic vision of We Care is to create a better world, to support people in their endeavours to achieve a better human growth and development. We Care wishes to create and build an attitude and culture of love and care towards the more needy members of our society, towards nature and environment. We Care also wishes to create a network with people of goodwill – all those who think like us and who care.

At present We Care is involved in the service of people in many fields, like care of the poor, care of those in need of education, care of the sick and infirm, care of orphans & children, care of the homeless, care of those seeking employment, care of women, etc. We Care believes in reaching out in love and service, because nothing else matters!

OUR LOGO *We Care*

The logo, WE CARE with a branch of fresh leaves – was designed by Ms Angeline Sunderraj. New leaves are a symbol of new life that bring joy and hope. New leaves herald the season of Spring which is a resurgence of new life. This logo is symbolic of two things: We care for people - bringing a new leaf into their lives thereby bringing a new sense of hope and joy. We care for mother earth - which is a constant inspiration of new life – hoping that mother earth will always bring forth a new leaf of hope, joy and life!

WE CARE TRUSTEES
