EDITORIAL

Dear Friends,
Greetings.

Pat Patrick, in her book, *Awakening the Dream Within*, writes, **“In life, we leave a legacy to our children, we leave our footprints wherever we travel, and we leave our fingerprints on every heart we touch.”** Her words echo an outlook that We Care has been striving to achieve in our work over the past sixteen years.

We are aware of the value and importance of good education in the life of a person, how it helps to shape and develop our thinking, understanding and practice of reality. However, good education is possible only when the primary needs of a person such as food, clothing and shelter are met. It is here that some of our efforts, especially the nutritional programme of We Care has been effective and made a difference.

Few years ago, four children, coming from a single family, were attending the free-evening-tuition classes. They looked so frail and weak, especially the girls. Their bodies were small and under-developed for their ages. The reason behind this was an alcoholic father, who squandered his wages and a small income from the mother's work as a house maid. An under-nourished body is a sign of an under-developed brain and this was reflected in their school performances. After speaking to the tuition teacher, our staff, and their mother, we decided to put these children on a special diet of an egg-a-day. In a few months time, the results were there for all to see. Not only their attendance became regular, but their health too improved and so was their school performances.

As part of our free-evening-tuition for poor children, we ensure that every child receive some nutrition. We Care has also been regularly supporting the nutrition programme of young girls in boarding houses. This little gesture has been yielding good results.

Another set of needs following the basic ones are, sanitation, education and healthcare. The *Swatchh Bharat* programme is beginning to show results. Decent sanitation is truly a crying need, the need of toilets for young children, especially girls. It is good to read in the news reports that the practice of open defecation is slowly becoming a thing of the past. At We Care we invest time in making our children aware of the need for personal hygiene and sanitation. Awareness is given in simple things like cutting of nails, making one's hair, washing of hands before meals, using the toilet and keeping it clean, take a regular bath, wearing clean clothes, disposing trash in a proper manner, etc. All of this, go into helping the children in having a healthy mind in a healthy body. Our children definitely need a holistic approach to their growth and development. This awareness is being dispensed at regular intervals both through the free-evening-tuition and the teenagers groups.

Meetings are also conducted for the parents of these children, to ensure that they too become an integral part of their child's education. After all, the mother, being the key figure in the life of a child, must take responsibility for their child's growth and development. Issues such as education, nutrition, health, hygiene and sanitation are discussed with them. They are also shown their role and responsibility and how they ought to lead their children by example. With increased awareness one can see the changes that are happening and hope that these will have a lasting impact on the minds of our young boys and girls.

We have also been reaching out to people suffering from diseases like cancer and kidney failure. With the changes in food habits and life-styles, more people are being adversely affected with such diseases needing help and support. The cost of medical care has also steadily been on the rise and the poor are finding it extremely difficult to make ends meet.

We are grateful to all our donors, for your generous contributions and continued support that help us to achieve all our initiatives and endeavours. We take responsibility to utilize the resources well and to reach out to as many persons as possible. Do support us with your prayers too.

As we now move into the seventeenth year of our commitment to humbly serve the poor with love, we are pleased to place this newsletter into your hands. Through all these activities, we endeavour, to touch the lives of as many children, patients and the poor, with lasting values that promote the goodness of life and to **“leave our fingerprints on every heart we touch”**.

This newsletter covers the highlights of programmes, activities and corresponding financial information for April-March 2015-16. Pictures have been arranged to suit the layout of the pages and do not correspond with the text where these have been placed. The newsletter is also available on our website.

Putting people first, social accounting. In our efforts to enhance the quality of our work and to ensure the optimum cost-benefit we have made an effort to count the number of persons who have benefitted from the programme and activities. The figures given in the statistical tables are taken from our records. The details are not complete because the real number of people who benefit from our programme is not easy to determine. The information will however give the reader a fair view. **It is not how many people you serve, that counts. It is how well you serve them, which really matters.**

We remember with gratitude, our Divine Patrons, St Joseph and St Anthony, our Trustees, Donors, Benefactors, Well-wishers, Staff, Volunteers and those who associate and support us in one way or another. We hope and pray that God Almighty may bless each one of you and your family members in a ways that He knows best.

With best wishes,

Fr Trevor D'Souza,
Managing Trustee
31st March 2016

*This space is dedicated in prayerful remembrance of our donors,
benefactors, well-wishers & beneficiaries who have left for their
heavenly abode
May their souls rest in peace.*

Aayushi Srinivasan (Volunteer, Christ University):

"The experience was more of a philosophical lesson for me than an 'academic' one... it taught me the difficulties people face in life and that our mental cognition doesn't really allow us to think about the others in this fast paced world. I thank 'We Care' for extending their areas of service and allowing me to do something I truly believe in."

Namita K N (Volunteer, Christ University):

There is much fulfillment and joy in serving the poor.

MRS SHELMA ABREO, a member of Premankur, is a dignified and graceful lady. She was happily married for nearly 60 years, a mother of five, grandmother of ten and great grandmother of four. A person gifted with many talents (stitching, baking, knitting, crochet, painting and music) and lots of energy. She was actively involved in various charitable groups and activities and even now at 81 she sees herself as being the "hands and feet" of God, to reach out to the poor. As part of the Premankur, she cuts baby dresses and is punctual for the meetings. She is thankful to God for giving her a long life and good health so that she can serve the downtrodden in our society. The Premankur group is really proud of her. Franklin Menezes Memorial Health Care Fund

I do not want to be a reservoir, but a channel of God's Love

This Fund has been created by **MRS ANNA MENEZES**, wife of Late Mr Terence Menezes, in the memory of her son, **Franklin** who died on 19 September 2014. Through this fund she intend to express her gratitude to God for the good things that he has done for her. Firstly, after a long struggle, her property was returned to her, almost by a miracle. Secondly, her son who had gone away from her, returned just one day before his death. She says "God has never ceased doing miracles for me. I want to be a channel of God's love and mercy to people who are genuinely in need. I do not want to be a reservoir, but a channel of God's Love."
